

CROP MANAGEMENT REPORT

January 14th, 2022

Volume 9, Issue 1

IPM AUDIO UPDATES

To catch my IPM Audio Updates recorded weekly, you can sign up at: [Rolling Plains/West Texas IPM Audio Updates](https://www.facebook.com/stlawrenceipm/) and receive notifications by text when one has been recorded and then listen to it whenever you wish. This is a very brief update about what I am finding around St. Lawrence both pest and crop wise along with what I expect to see in the near future.

2022 Result Demonstration Review

The 2022 Result Demonstration Review will be held on Thursday, January 20th at the Glasscock County Annex beginning at 11:30 a.m. A meal will be served at noon as usual. We will cover the results from trials conducted during the 2021 growing season.

Farm Bill Sign-Up

As everyone is aware of, March 15th is the final day to sign-up for ARC/PLC coverage. With the loss of economist in our area I am not able to bring anyone in to talk on sign-up options this year but we do have our [ARC/PLC Decision Aid](#) that was put together by Dr. Joe Outlaw to assist you in making a decision on which options may work best in your situation. There are also several publications including their latest on the impact of higher fertilizer prices on farms. Take a look if you feel like it will benefit your farm.

2022 Tri-County Crops Conference

The 2022 Tri-County Crops Conference is scheduled for March 1st at the Glasscock County Annex. Topics this year will include: Weed Control Options with Increased Costs, A Grower Panel From Long Term No-Till Producers, Fertility Management Options with High Prices and Thoughts for the Future, as well as our Annual Auxin Training. A meal will be served as well.
